

ASTRORAGGI TWIN

**An infinity
of moving pencil beams of light.**

BUILT-IN EFFECTS

ASTRORAGGI TWIN emits 103 beams of concentrated light, each of which is in continuous motion, obtained through the rotation of the two lamps on the inside of the projector. It is possible to switch these lamps on in

sequence thus splitting the beams, which then become 206 and take on an oscillating and cyclic motion. The beams, white in the standard version, can be multicoloured (4 different colours) by using the optional colour wheel.

ASTRORAGGI POWER

Novità

Un effetto classico della discoteca con i plus della tecnologia più avanzata

Astoraggi Power è un effetto da centro pista che nel corso degli anni è diventato un classico irrinunciabile. Sull'onda del revival della moda degli anni sessanta e settanta, Clay Paky ha rinnovato questo effetto luce, iniettandogli una buona dose della tecnologia più moderna. Astoraggi Power diventa così potentissimo ed intelligente, per integrarsi perfettamente negli impianti luce più sofisticati.

New

A discotheque classic lighting effect
with the advantages of the most advanced technology

Astoraggi Power is a center-floor effect, which over the years, has become an indispensable classic lighting decor.

Following the revival wave of the sixties and seventies, Clay Paky has revitalised this lighting fixture, by injecting a good deal of the most modern technology. Astoraggi Power has thus become very powerful and intelligent, to be perfectly integrated into the most sophisticated lighting systems.
